

# **UWM Union Wireless Internet Access**

A provisional guest account & password has been created for the GROWTH Conference this year. Below are instructions for both PCs and Macs.\*\*\*

## For PC Laptops:

1. Right click on the wireless signal symbol in the lower right hand corner of the screen and select "View Available Networks"
2. Choose "UWM Sponsored Network"
3. Once connected, start up an internet browser (ie. Firefox, Google Chrome)
4. A log in page should appear.\* Here is the account name and password:  
Name: Growth  
Password: conference2017
5. Hit Submit and you should be redirected to a homepage\*

\*Some browsers will direct you to a certificate page asking whether or not to trust the website. Please click on the red "trust website" option.

## For Mac Laptops:

1. Select the wireless signal icon at the top right hand corner of the screen\*\*
2. Select "UWM Sponsored Network" from the dropdown menu.
3. Choose "UWM Sponsored Network"
4. Start up an internet browser (ie. Safari, Internet Explorer)
5. A log-in page should appear. Here is the account name and password:  
Name: Growth  
Password: conference2017
6. Hit submit and you should be redirected to a homepage.\*

\*Some browsers will direct you to a certificate page asking whether or not to trust the website. Please click on the red "trust website" option.

\*\*You can also go through System Preferences, then through Networks to get to the UWM Sponsored Network

\*\*\*If you have additional security features on your laptop, you may need to take additional steps to access UWM WIFI:

- 1) Access an open wireless network with
- 2) The SSID "UWMSponsored" that
- 3) Requires page redirects (captive portal) to a client sign-on page
- 4) And that uwm.edu is set as a trusted network and that
- 5) (For windows users) their wireless network device drivers are up-to-date.

If your homepage will still not load, try clearing all browser history then restart web browser.
